

BITH306 SYSTEMATIC THEOLOGY II

INTRODUCTION

This is an overview of the theological areas of anthropology, Christology, and angelology.

Objectives

By the end of this course the student will:

- Articulate the meaning of key theological terms and concepts.
- Explain the nature and necessity of systematic theology including the significance of theological thinking and interpretation.
- Articulate personal positions on these doctrines within the biblical framework while employing proper theological methods.
- Articulate Biblical answers to key theological questions raised by the church and/or the world that pertain to biblical doctrines.
