

# CF210 HEALING MINISTRY

## INTRODUCTION

This course introduces the invisible war in which every believer is engaged. It is a war where no one wears a uniform, but where everyone is a target. The historical and prophetic record of this war is contained in God's Word, the Bible.

In Old Testament times a trumpet was used to summon God's people to battle. Today, a spiritual summons is sounding throughout the nations of the world. It is a summons to the invisible war. It is the call to arms. This course issues a call for you to move from a life of defeat and bondage to a life of victory and freedom in Jesus Christ.

Before you begin your study of healing and deliverance it is helpful to understand some of the current attitudes you will face as you begin to minister in this area. In regards to healing and deliverance, many believers have ignored it, denied it, complicated it, or delayed it. The most obvious purpose of healing is to make the sick well. But healing and deliverance serve purposes other than making people whole and we will study that in depth.

The Bible commissions all believers to be involved in the healing and deliverance ministry, but the Word also confirms there are special gifts of healing given to some believers by the Holy Spirit. We will discuss the Holy Spirit as part of the Trinity of God, summarize His ministries, define spiritual gifts, and specifically focus on the gifts of healing and related spiritual gifts.

If faith comes by hearing God's Word, then it can leave by hearing and accepting traditions of men that destroy faith. We will discuss common traditions of men concerning healing. A Biblical response to each tradition is presented since the best remedy against error is not silence, but proclamation of the truth of God's Word. As we remove traditions and objections concerning healing we remove barriers blocking divine healing from occurring.

Why don't more people get healed? Why are some healed while others are not? Why are sometimes very shallow and worldly Christians healed while sincerer and dedicated people have not yet received healing? These are some of the questions you will face when you begin to minister healing and deliverance. This course concerns variables that affect healing. A "variable" is a factor that causes variations or different results. God has promised healing in His Word. We must remember, however, that every promise of God

is conditional on the response of man. This is why it is important to understand the variables that affect healing.

The battle for the body intensifies as you learn how to minister healing. You will also learn how to minister deliverance. It is important that those who have been healed receive follow-up ministry. Jesus gave follow-up instructions to those who experienced healing and deliverance. There are only two possible end results of a sickness. It will either be for the glory of God or a sickness unto death.

Through this course students will learn strategies for ministering and receiving healing, but the Bible also has much to say concerning how to protect your body from Satanic attacks. The Bible teaches principles for living in the Kingdom of God physically as well as spiritually. Just as there is preventative and curative medicine in the natural world, there are preventative and curative measures given in God's Word. "Preventative" measures help prevent sickness. "Curative" measures bring healing when sickness does occur.
